

Garden Report

All the classes at Barlaston First School have contributed to Stone in Bloom.

Reception children have grown lots of plants by their classroom. They have also designed minibeasts to be painted on the shed. The plants are grown in containers and all the containers are different sizes and different colours.

Years 1 and 2 have a canal narrow boat and that is lovely and I think that the judges will like that. We think Year 1 and 2 have worked really hard. The young children have planted lots of flowers, there are sunflowers and many more flowers. The narrow boat has two puppets on it and they are called Rosie and Jim.

Year 3 and 4 have bought some grow bags and they are full of plants. There is a grow bag for each group. Lots of lovely plants are flowering in the grow bags. We have put up some netting for some of the plants at the back to climb up, there are convolvuluses and sweet peas.

All this we have done for our school. Now we want you to come and have a look. All this is for enjoyment and relaxation and it makes you happy. It makes you feel like you are a very good person and you are a very good person at everything, even good at the things you don't like.

Year 3
